[4th Quarter]

New Additions to the PCB Team

We are happy to announce the addition of two new members to our PCB team, Tom Trautsch and Eric Drachenberg.

Tom Trautsch joined the bank at the end of August as our Chief Credit Officer. His primary duties include supervising the credit function of the bank while also working with our Commercial and Ag customers.

Tom is originally from Prairie du Chien, where he grew up and worked on his family farm. He later went on to graduate from the University of Wisconsin-La Crosse with a degree in Finance. Tom has worked in the credit and lending industry for the past 30 years, with the majority of that time being in community banking. He and his wife Sue reside in the Mazomanie area. They have two adult sons who also live and work in the area. When he's not working, Tom enjoys spending his time outdoors hunting, fishing, and hiking.

Eric Drachenberg, a familiar face at the bank, joined us in early September as an Ag Lender. Eric has been involved in farming his entire life and currently lives and crop farms in Arena. He is well acquainted with the bank and our customer base thanks, in part, to his experience serving on our Board of Directors.

Eric is a graduate of the University of Wisconsin-Madison. He grew up on a livestock and crop farm outside of Arena, WI, and has operated his own farm, with his wife Jan, for the last 30 years. Eric has been heavily involved in the community all of his life. He is the former Arena Fire Chief and served as an EMT there for almost 20 years.

We are thrilled to have Tom and Eric join our team. In the coming weeks and months they will be working to get acquainted and meet with our Commercial and Ag customers. If you see them, please join us in giving them a warm welcome!

Delagrave & Jones Promoted

We are happy to announce the promotions of two members of our lending team, Tom Delagrave and David Jones.

Tom Delagrave has been promoted to Senior Vice President, Chief Lending Officer. Tom will be supervising the overall lending

function of the bank while continuing to serve our customers as a Commercial and Ag Lender.

David Jones was promoted to Senior Vice President. David was an integral part of our Paycheck Protection Program rollout last year,

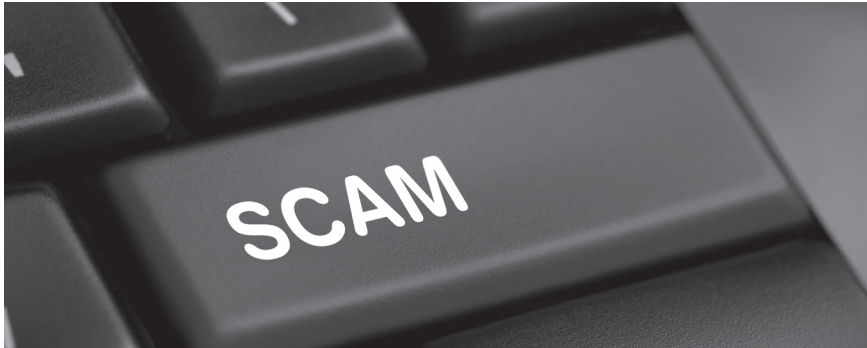

helping over 250 local businesses. David will continue to advance the work he has done with the Small Business Administration (SBA) to assist area business customers.

Join us in congratulating Tom and David on their well-deserved promotions!

Conversion Recap

As you may know, we recently went through a major computer system conversion here at the bank. The conversion included updates to our online and mobile banking platforms as well as many of our internal systems. In the banking industry, system conversions typically only happen once every decade or more, and are many times a necessity to keep our platform and security on the leading edge. We ultimately chose our current software partner because they enable us to offer our customers cutting-edge tools and products, while also prioritizing the security of our customers' information. We appreciate your patience with these changes as we work to fully implement everything that the new software has to offer.

Microsoft Windows Update Scam

Microsoft Windows is the most widely used operating system in the world. This October, it is getting an upgrade. Microsoft has announced that starting October 5, compatible systems that run the current version of Windows 10 will be offered a free upgrade to Windows 11.

Cybercriminals are sure to use this announcement in several ways. In the coming weeks, we expect to see update-related phishing emails, fake Windows 11 webpages, and pop-up ads designed to look like a Windows update.

Don't fall for these scams. Follow the tips below to stay safe:

- Always think before you click. Cyber-attacks are designed to catch you off guard and trigger you to click impulsively.
- Only trust information from the source. If you want to learn more about the Windows 11 update, go directly to Microsoft's official website or follow their official social media pages.
- If you are prompted to update your work computer, reach out to your administrator or IT department. They can check to make sure the update is legitimate and safe.
