You have the option to change your fixed rate IRA to the current variable rate product at any time during the term of your investment. This option can also be used to convert a variable rate IRA to the current fixed rate product. This "Flex Option" may be used once during a term. Maturity date will not change when using Flex Option. Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks). Interest will be compounded monthly and will be credited monthly. We will mail the interest in a check to you or deposit the interest in an account that you designate. The annual percentage yield assumes interest will remain on deposit until maturity. A withdrawal will reduce earnings.

Balance Information: We use the daily balance method to calculate the interest on the account. This method applies a daily periodic rate to the principal in the account each day.

Limitations: You must deposit \$500.00 to open this account. You may not make additional deposits into this account. You may not make withdrawals from your account until the maturity date.

Time Account Information: Your account will mature in forty-eight months. If you withdraw any of the principal before the maturity date, we will impose a penalty of 180 days interest. This account will automatically renew. You will have 10 days after the maturity date to withdraw funds without penalty. If you do not withdraw the funds, each renewal term will be for an identical period of time as the original term.
